PROFESSIONAL SUMMARY

Detail-oriented and versatile Warehouse & Logistics Specialist with over 20 years of progressive experience across supply chain operations, customs compliance, and technical inventory management. Proven track record in optimizing receiving/shipping workflows, executing international export/import procedures, and leading operational teams. Certified forklift operator actively expanding capabilities into Cyber Security and IT Governance, supported by hands-on TryHackMe modules in networking, operating systems, and data security alongside data analytics (SQL, Python, Power BI).

KEY ACHIEVEMENTS & CERTIFICATIONS

- TryHackMe Cyber Security Modules:**
 - DNS in Detail:** Mastered Domain Name System architecture, recursive/authoritative resolution workflows, record types (A, AAAA, CNAME, MX, TXT), and DNS vulnerability mechanics.
 - Networking & OS Fundamentals:** Completed hands-on modules in network architecture (OSI & TCP/IP models, routing, subnets) and Operating Systems Basics (Linux/Windows administration, processes, file permissions).
 - Data Security & Compliance:** Applied practical concepts in data coding/encoding formats, data representation (binary, hex), data security controls, and core GDPR data protection principles.
- Data Analytics & IT Credentials:** Practical proficiency in **SQL (Basic)** for querying, **Python (Basic)** for data manipulation, and **Power BI (Basic)** for dashboard reporting.
- Formal Certifications:** Level 2 Certificate in Cyber Security Principles, Level 2 Certificate in Data Protection & Principles, and GRC Fundamentals.

WORK EXPERIENCE

Receiving & Shipping Clerk • TVOne Ltd 05/2011 – Present | Margate, UK

- Customs & Logistics:** Facilitate international shipping and customs clearance; prepare export documentation and liaise directly with customs authorities and couriers to optimize delivery timelines.
- Technical & Quality Control:** Interpret schematic diagrams, program/test circuitry on SUB and main boards, conduct precise soldering, fault-finding, and quality inspections.
- Inventory & Data Systems:** Manage inventory control via NetSuite and NVM, execute weekly cycle counts, track monthly KPIs, and leverage data analytics tools to maintain stock integrity.
- Process Optimization & Compliance:** Implement lean manufacturing initiatives (Kanban/Kaizen) to streamline warehouse workflows, uphold strict GDPR, data security, and cyber security standards, develop standard operating procedures (SOPs), and operate counterbalance forklifts safely.

Warehouse Supervisor • Staples UK 02/2004 – 05/2011 | Margate, UK

- Team Leadership:** Supervised daily warehouse operations, staff scheduling, loading/unloading tasks, and enforced strict health and safety protocols regarding forklift and equipment usage.
- Financial & Resource Management:** Developed and managed annual department budgets, ordered warehouse equipment, and maintained comprehensive equipment/materials logs.
- Inventory Auditing:** Conducted periodic stock checks against customer orders and picking lists to preserve inventory integrity.

Assistant Manager • Subway 01/2004 – 09/2004 | Margate, UK

- Managed daily store operations, health & safety compliance, weekly staff rotas, vendor supply coordination, and incoming stock quality inspections.

Supply Specialist (LCpl) • HM Forces (British Army) 09/1996 – 01/2004 | Colchester, UK

- Achieved highest NVQ level qualifications in supply chain logistics while operating under demanding physical and mental environments.
- Instructed and led recruit squads; trained in driving diverse military and commercial vehicles including HGV, counterbalance forklift, and reach truck.

CORE SKILLS & QUALIFICATIONS

LOGISTICS & CUSTOMS Import/Export Clearance, Courier Scheduling, Freight Documentation, Inventory Control, Cycle Counts	DATA & IT SYSTEMS SQL (Basic), Python (Basic), Power BI (Basic), Data Coding, Data Representation, NetSuite, NVM
CYBER SECURITY & NETWORKS	TECHNICAL & LICENSING

TryHackMe (DNS in Detail, What is Networking, Operating Systems Basics), Data Security, GDPR Principles

Circuit Testing, Soldering, Lean Systems (Kanban/Kaizen), Forklift Certified (Counterbalance & Reach Truck)

EDUCATION & CREDENTIALS

Level 2 Certificate in Data Protection & Principles

Level 2 Certificate in Cyber Security Principles

NVQ Supply Chain Logistics – HM Forces Training Framework

GCSEs – St George's C of E High School, Broadstairs (1992 – 1996)
